A Decade of Growth and Success Fuels American Global's Latest Expansion into New Markets

American Global kicks off 2025 by further expanding their physical presence and continuing to add notable new talent to their fast-growing team.

Jericho, NY – The first decade of American Global's history was a success story highlighted by remarkable growth. Today, American Global is one of the largest privately held construction insurance and surety brokers in North America, and, as they enter their second decade of service, it is apparent they have no intention of slowing down.

A driving force behind the firm's success is their unique culture, based on collaboration and innovation. American Global's steadfast commitment to these and other core values have helped them achieve double-digit growth year after year, including 2024. The company continues to carefully assemble its diverse team of talented professionals who work together across multiple locations throughout the US, Canada and Europe. By the end of 2025, American Global will boast a team of more than 200 of the most talented insurance, surety and construction industry professionals, surpassing the size of many construction practices at some of the world's largest brokerage firms.

To accommodate their growing numbers, American Global is expanding once again. In the first quarter of 2025 alone, the broker celebrated the grand opening of three new offices across North America and the relocation of three existing US offices to larger, enhanced facilities.
