Damien Kolosky Appointed President of American Global International

Leveraging more than two decades of global infrastructure, construction, and complex risk leadership, Damien will guide the firm's international strategy and global expansion

Jericho, NY— American Global is extremely pleased to announce that Damien Kolosky has joined the firm as President - International. Damien is a seasoned executive with more than 25 years of leadership experience across design and construction, infrastructure development and investment, and sophisticated risk environments.

Damien will serve as a key member of the organization's executive leadership team. As President, he will help shape the strategic vision for the firm's global expansion while overseeing international teams and partnerships in support of multinational clients, contractors and developers who operate across complex markets. He will lead American Global's international growth and oversee operations in Rome, which services clients across Europe.

Prior to joining American Global, Damien held senior executive roles within top-tier international construction organizations as well as infrastructure investment firms and asset managers, where he led origination and development activities, overseeing large-scale infrastructure initiatives across multiple jurisdictions. In these roles, he was responsible for driving strategic growth, managing institutional and public-sector partnerships, and navigating the regulatory, financial, and operational complexities associated with major infrastructure projects.

Damien also brings deep industry expertise from his two decades at Bouygues Construction, one of the world's leading construction groups. There, he held senior positions across Asia and Latin America and ultimately served as Managing Director in North America and a member of the international executive committee.

Michael Marino, Chief Executive Officer of American Global, said, “*Damien’s exceptional leadership, construction expertise, and deep understanding of global project risk positions American Global well to continue driving global solutions for our clients. His ability to build strong teams, develop strategic partnerships, and deliver sophisticated solutions for contractors will be instrumental as we continue expanding our presence globally.*”

Damien is also excited for the opportunity that lay ahead, saying, “*I am truly grateful to American Global’s leadership for their confidence and trust. Joining a firm with such a strong culture, entrepreneurial mindset, and exceptional depth of expertise is both humbling and energizing. I am honored to join the firm at such a pivotal moment in its international ambition. I know I can rely on the extraordinary competence and commitment of the American Global team, and I am excited to work alongside them to strengthen our European presence and expand our global footprint worldwide.*”

Damien holds a Master of Engineering degree from the prestigious Grand école, ESTP, in France and is tri-lingual (English/French/Spanish).
